

DataCare 2025 Fireproof Media Safe

(Stores 70 LTO Tapes)

Securing your Data Media

DataCare Fireproof Media Safes are engineered specifically to protect information that is stored digitally on tapes or hard drives from fire, water, magnetic interference, dust, humidity and theft. These media safes withstand temperatures of 1850 degrees F. for up to two hours, providing data management professionals with confidence and the peace of mind they deserve when storing high value data.

Highlights of Data Media Safe

- Tested and certified by SP Research Technical Institute in Sweden to protect data against damage from fire and heat for up to 1.5 hour at 1850 degrees F.
- Safely stores approximately 70 LTO Tapes
- Delivered fully assembled at no charge, door to door
- 3 year material warranty and free lifetime replacement after exposure to fire.
- Built with double door construction & internal water resistant seals. to prevent water damage from fire hoses and sprinklers.

Class 125 Fire Protection for 1.5 hours

Protects computer media for 90 minutes in furnace-burn time, at temperatures upto 1859°F.

Explosion Tested

Explosion-tested and designed to withstand temperature blasts of up to 2000°F.
